COMICCRAFT AI

Phase 6 - Project Testing

Testing is performed to check whether the ComicCraft AI application works correctly.

Key Objectives

- Test the application startup.
- Test entering a story idea.
- Check whether the generated story is displayed correctly.
- Check whether the comic image loads correctly.
- Test the PDF download feature.
- Check the web page for layout or display errors.
- Fix errors found during testing.

Expected Outcome

The main features were tested and necessary issues were corrected.
